However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Coke - a derivative of metallurgical coking coal is particularly a raw material used by various industries. Being a vital component in the process of conversion of metallurgical ores into metal, coke plays an important role in the metal industry. The coke industry is dominated by large integrated steel plants (ISPs). Traditionally, coke production has been captive, thus ISPs leaving a measure surplus for merchant trading. But during the past years, a number of pig iron plants have been built in India without captive coke making facilities. Also, most coke oven batteries are located in the eastern region of the country in proximity to steel units. As a result, coke consumers in the western and southern regions have to rely primarily on imported coke.

Major Coke consuming industries - Pig iron producers and Steel Industry, Foundry industry, Ferro- alloys industry, Blast Furnaces, Zinc and lead producers & Cement Industry.
